<b>Other</b>	Git, Github, vs code

## EXPERIENCE

---

**Web Developer**

March 2024 - September 2024

Mindrops

*Netaji Subhash Place, Delhi, IN*

- Developed and maintained responsive websites using HTML, CSS, JavaScript, React.js, and WordPress.
- Built dynamic user interfaces and single-page applications with React.js.
- Worked with PHP and jQuery for various web development projects.
- Collaborated with clients to meet their requirements and deliver high-quality projects.
- Utilized Git for version control and project management.
- Troubleshoot and resolved issues in a timely manner to maintain website functionality and performance.

## PROJECTS

---

**React.js password generator** Customizable Password Options: The project allows users to generate passwords by selecting specific criteria, such as the inclusion of numbers or special characters, tailoring passwords to their needs.

Copy to Clipboard Feature: Once generated, users can easily copy the password to their clipboard with a simple click, enhancing convenience and usability.

User-Friendly Interface: The password generator features a simple and intuitive interface, making it easy for users to generate secure passwords quickly and efficiently. [\(Try here\)](#)

**Anjali Herbavedic Website** Developed a responsive e-commerce website showcasing various care products. Utilized HTML for content structure, CSS for styling, JavaScript for interactive features, Bootstrap for responsive design, and GSAP for smooth animations. Deployed the website via Netlify with hosting on GitHub. Key features include detailed product listings, gift pack shopping options, and comprehensive contact and company information. [\(Try here\)](#)

**Spotify Clone** Create a Spotify music frontend using React.js. This website also has a responsive design. Through this project, I faced many challenges, such as learning how to use hooks and React Router DOM. [\(Try here\)](#)

**Personal Portfolio Website** Developed a personal portfolio website using HTML, CSS, JavaScript, and Tailwind CSS. In this project, I also created a dark mode, allowing users to easily switch themes. I faced many challenges while creating my portfolio, but in the end, I successfully completed it. [\(Try here\)](#)
