Other	Git, Github, Vs Code

EXPERIENCE

Web Developer

March 2024 - September 2024

Mindrops Solutions

Netaji Subhash Place, Delhi, IN

- Developed and maintained responsive websites using HTML, CSS, Bootstrap, JavaScript, React.js, and Word-Press.
- Contributed to the Himachal Government project, CCRC-(Climate Change Research Center), by traveling to Shimla to deliver on-site support.
- Designed a web interface for kiosk screens of varying sizes, ensuring responsive and user-friendly layouts.
- Enhanced project performance by optimizing JavaScript through minification, leading to improved load times and smoother user experience.
- Built dynamic user interfaces using HTML, CSS, Js, and single-page applications with React.js.
- Worked with Wordpress for various web development projects.
- Collaborated with clients to meet their requirements and deliver high-quality projects.
- Utilized Git for version control and project management.

PROJECTS

Anjali Herbavedic Website Developed a responsive e-commerce website for care products using HTML, CSS, JavaScript, Bootstrap, and GSAP for animations. Deployed on Netlify with GitHub hosting. Key features include product listings, gift pack options, detailed contact and company information, and a user-friendly shopping experience. ([Try here](#))

Personal Portfolio Website Developed a personal portfolio website using HTML, CSS, JavaScript, and Tailwind CSS. In this project, I faced many challenges while creating my portfolio, but in the end, I successfully completed it. ([Try here](#))

Weather Application Developed a Weather App using HTML, CSS, JavaScript, and weather APIs, hosted on Vercel. Displays real-time weather data, including temperature, humidity, and weather conditions for any location. Integrated with a weather API for fetching up-to-date information based on user input. Implemented error handling to manage invalid inputs and API errors gracefully. ([Try here](#))
